SKILLS

Languages: JavaScript, TypeScript, Python, Bash, SQL, HTML, CSS
Frameworks and Databases: PyTest, Playwright, Selenium Webdriver, React, NodeJS, MySQL, PostgreSQL, MongoDB
Tools: Git, Postman, Confluence, Jenkins, Jira, OpenShift, Docker, AWS (S3, SQS, Lambda, DynamoDB)

WORK EXPERIENCE

MNTN   **May 2023 – July 2023**
Quality Assurance Engineer   Remote
- Spearheaded the development of a PyTest automated test suite, integrating seamlessly into CI/CD pipeline, resulting in 20% reduction in release cycle time.
- Identified and resolved critical bugs in the system, ensuring impeccable software quality before production releases.
- Collaborated with cross-function engineering teams to enhance end-to-end integration testing, achieving 30% increase in test coverage.
- Tracked sprint work in Jira and consistently delivered high-quality code by submitting well-received pull requests.

Magnite (formerly SpotX)   **Jan 2021 – Jan 2023**
Software Engineer in Test II   Remote
- Pioneered a Playwright end-to-end automation suite, saving 10 hours per week and improving testing efficiency.
- Implemented effective test automation solutions, leading to a 50% reduction in manual testing efforts for routine daily tasks.
- Maintained a "Golden Data Set" ensuring data parity between testing environments and production, contributing to a more stable software release process.
- Played a pivotal role in the development and maintenance of the PyTest backend regression suite, resulting in faster and more reliable regression testing.
- Executed comprehensive regression and smoke tests, ensuring software stability during production releases and maintaining a high-quality user experience.
- Developed and executed manual test plans, identifying critical areas for improvement and contributing to a 15% reduction in post-release defects.

AT&T and T-Mobile   **Nov 2011 – Jan 2020**
Various Sales Roles – Sales Rep, Store Manager, B2B Account Executive   Chicago

PROJECTS

PromptRepo - promptrepo.vercel.app   **2023**
- Built a full stack web application allowing users to share and store AI prompts.
- Utilized JavaScript, Nextjs, MongoDB, NextAuth, TailwindCSS

React Weather App - pz-react-weather-app.netlify   **2023**
- Built a simple weather app that will provide ChatGPT clothing recommendations.
- Utilized JavaScript, React, ChatGPT API, OpenWeather Api

EDUCATION

Coding Temple Bootcamp, Chicago   **Jan 2020 – May 2020**
Certificate of Completion

Loyola University Chicago   **Jan 2011 – Dec 2013**
B.A Human Resources
